

BEFORE YOU START

Click the **SETUP** button on the left:

- To select the topic.
- To set the time in seconds for which the word should pop up.
- To select the problem statement.
- To upload new problem statements on the server. To Setup a Transcript with 2 users.
- Once added, **you may need to refresh**, you can select the transcript in the conversation setup.
- Select the **same** transcript on both machines.
- Select one user on one of the machines and the other user on the second machine.

After the setup...

Click the **START** button:

- To start the recognition.
- You will see the words recognized pop up on the top right.

Click the **STOP** button:

- To stop the recognition.
